PREVIOUS CAREER HISTORY

Yeminli Mali Müşaviri Bayram Turançiftçi | Secretary | 12/2020 - 08/2024

Matte Studio | Part Time Tester | 12/2018-09/2020

I tested four games before they were released. For that, I tested four games before they were released. For that, I played these games to find bugs and gave feedbacks.

Programing Languages : C#

These games are : Captain Kaplow, Dodgeball Duel, Bombardo, Crowd Master

YakınKampüs | Intern | 08/2017-09/2017

I helped them to make a Unity tutorial. At first, I searched other Unity tutorials on the internet. I showed some of the tutorials that I like. I gave my opinion about how it is supposed to do.

Programing Languages : C#

Kuax | Intern | 05/2016-06/2016

I wrote a program that saves tweet from specific hashtags by using java. The program works like that, whenever in an event participants write a tweet with events hashtag, the program collects these tweets and displays them on digital displays. I gave daily reports about progress to the supervisor.

Programing Languages : Java

During my internship at TÜRMOB, I was asked to contribute to a project aimed at building a platform that connects platform that connects Certified Public Accountants (CPAs) with companies, enabling them to collaborate effectively. My responsibility was to develop the pages requested from me, handling both the backend and frontend parts. By working on both sides, I ensured that the features were fully functional, integrated smoothly, and aligned with the project's overall goals.

Programing Languages : C#
